

European Week in the ESF Pre-Primary and Primary School

During the week 9 to 13 May 2016, the ESF Primary and Pre-Primary celebrated European Week with a series of activities and special projects designed to further a European spirit in school.

A whole school “European” assembly was organized, with the performance of the ‘**European Myth**’ involving all **22 languages** currently taught in the primary school.

A day to celebrate European countries, colours and costumes !

On Wednesday 11 May, many children and their teachers came to school wearing their national colours or in some cases, national costumes.

Classes in the pre-primary and primary gathered outside the modular building to present and introduce the various countries that together make up the ESF’s own very special map of Europe . . .

Just some of the many moments!
