RE.: Presentation of 2016 work experience activities

For the students and parents of year six.

The annual work experience presentation will take place on

Wednesday 12 October 2016, at 19.00 in the Aula at the ESF.

All S6 students who took part in the work experience must attend this presentation. Selected students from S6 will present what they achieved last summer and evaluate their work placement.

Teachers, parents and students of S5 are also welcome to attend for an introduction into their own placements.

Students of S6 are reminded that they must all, individually prepare a presentation which should include a description of the tasks they were given at their place of work and an overall evaluation of their work experience.

This will be organized by the L1-teachers who are informed about the procedure. Three to four presentations as a maximum and per section will be chosen for presentation on that evening. They should last between three and four minutes each.

We must emphasise that promotional material from students' work placements is not acceptable.

Thank you for your co-operation.
